

A photograph of a person climbing Mount Etna. The person is a small silhouette in the center of the frame, wearing a dark jacket and carrying a large backpack. They are standing on a vast, snow-covered slope that leads up to a dark, rocky peak. The sky is dark with some white clouds, and a bright light source, possibly the sun, is visible on the left side, creating a strong contrast and casting long shadows. The overall scene is dramatic and emphasizes the scale of the mountain.
