

Dottorato in Medicina Molecolare e Farmacologia
Aula 1 - Sede IUSS- Ferrara 1391

Venerdì 1° aprile 2016 ore 12.00

FERRARI FEDERICA: "In vitro pharmacological characterization of non peptide agonists of the nociceptin/orphanin FQ receptor".

ARMAROLI ANNARITA: "Deep RNA profiling identified Clock and molecular clock genes as pathophysiological signatures in collagen VI myopathy".

Venerdì 15 aprile 2016 ore 11.00

RUZZA CHIARA: New guidelines for publication in biomedical journals

Venerdì 15 aprile 2016 ore 12.00

BRUGNOLI ALBERTO: "Influence of striatal cholinergic interneurons in L-Dopa-induced dyskinesia: an in vivo study".

NAPOLITANO ROBERTA: "Kevetrin: preclinical study of activity and molecular mechanisms of a new promising molecule in Acute Myeloid Leukemia".

Venerdì 22 aprile 2016 ore 12.00

KHAN MOHAMMAD FAISAL: "Identification of the genetic causes of non-syndromic orofacial cleft: An analysis of candidate genes".

OSMAN HANA: "The Regulation of CD80 Transcription by HLA-G in CMV infected heart transplanted patients".

FORCELLINI SILVIA: "In-hospital Cardiovascular Mortality, Body mass Index (BMI) and "Weekend Effect" in renal transplantation. The hospital admission and discharge database of the Emilia-Romagna Region".
