We are delighted to announce our next series of webinar on August 28, 2020. Please join our second webinar to learn about the COVID-19 situation, responses and lesson learned of Afghanistan, Bhutan, Guatemala and Italy.

In 2020, the global community is affected by Coronavirus Disease (COVID-19) limiting people's ability to travel and meet face to face due to the pandemic problem. Learning from different countries and about various aspects of COVID-19 is even more important and relevant.

This series will bring experts from different countries to share their country specific situation and responses to COVID-19 and contribute in the effort of combating the problem of COVID-19 by establishing better linkages with researchers and professionals from different countries and experts from different fields.
