Impact of COVID-19 on Sustainable Development Goals

The outbreak of COVID-19 pandemic not only affected the health sector but all aspects of life. It has widespread impacts on agriculture, education, transport, tourism, economic activities, and employment and so on. COVID-19 pandemic has been observed as a serious challenge in accelerating efforts towards achieving the SDG's.

This webinar aims to identify the areas of opportunities and challenges to achieve the SDG's in the context of COVID-19 pandemic in a ONE HEALTH perspective.
