

SCIENTIFIC-PROFESSIONAL CURRICULUM IN FORM OF AFFIDAVIT SUBSTITUTE
DECLARATION (ART. 47 DEL D.P.R. 28.12.2000 n. 445)

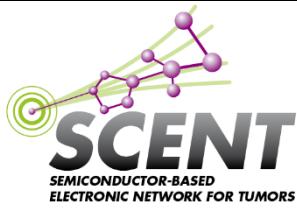

The undersigned **Gaiardo Andrea** (Fiscal Code: **GRDNDR89L10B006X**) born in **Borgo Valsugana (TN)** on **10/07/1989**, resident in **Borgo Valsugana (TN) Via dei faori 14, 38051** aware of the criminal liability that may be incurred in the event of falsification of documents and false statements (art. 76 D.P.R. 28.12.2000 n. 445)

DECLARES:

- that he obtained the Master's Degree in Chemical Sciences, D.M. 270/04 in Chemistry (LM/54 – Class of Master's Degree in Chemistry), on 12/12/2013 at the University of Ferrara, with the following grade: 110/110 cum laude;
- that he obtained the PhD in PHYSICS – (D.M. 45/2013), on 28/2/2018 at the University of Ferrara, with a PhD thesis entitled *Innovative chemoresistive materials for gas sensing and development of silicon and quartz MEMS devices*. The student grant was co-financed by the Bruno Kessler Foundation of Trento (Italy);
- the truthfulness of the own scientific-professional curriculum presented below:

Curriculum vitae et studiorum

Personal Information	
	<p>First name: Andrea Family name: Gaiardo Date of birth: 10/07/1989 Place of birth: BORGO VALSUGANA (TN) Address: via per Telve 66/3, Borgo Valsugana, 38051, (TN), Italy Nationality: Italy Sex: Male Age: 27 Telephone: 0532 – 974230 (office) Mobile: +39 340-8571457 E-mail: andrea.gaiardo@unife.it, grdnrd@unife.it Linkedin: https://www.linkedin.com/in/andrea-gaiardo-abb3b795/ ORCID: http://orcid.org/0000-0002-6688-6161 Scholar: https://scholar.google.it/citations?user=DoMXx8YAAAAJ&hl=en Research Gate: https://www.researchgate.net/profile/Andrea_Gaiardo2</p>
Current job position	
	<p>University of Ferrara and Bruno Kessler Foundation Research fellowship</p> <p>Research fellowship, founded by the University of Ferrara, on the Research project: "<i>Integrazione hardware a software di sensori a semiconduttore di nuova generazione per un naso elettronico</i>": the study concerns innovative materials dedicated to crop cultivation monitoring. First tutor: Prof. Vincenzo Guidi Starting: 1/06/2018 Official length of the fellowship: one year</p>

	SCENT s.r.l Year 2014- <p>He is co-founder, shareholder and chemical expert for the SCENT s.r.l. StartUp, StartUp founded in 2014 that realizes chemical sensors for medical applications</p>
Previous job position	
 FONDAZIONE BRUNO KESSLER	<p>University of Ferrara and Bruno Kessler Foundation PhD School in Science and Technologies PhD in Physics XXXcycle - Year 2014/2017</p> <p>Student grant co-founded by the Bruno Kessler Foundation on the Research project: "<i>Innovative silicon micro-heaters for gas sensor technologies</i>": the study concerns innovative materials, both for sensitive films and for silicon substrates, used in gas sensors design.</p> <p>PhD thesis title: <i>Innovative chemoresistive materials for gas sensing and development of silicon and quartz MEMS devices</i></p> <p>First tutor: Prof. Vincenzo Guidi Second tutor: Dr. Pierluigi Bellutti Period of PhD: 1/11/2014-30/10/2017 Official length of the course: 3 years Thesis language: English</p>
	<p>University of Ferrara Department of Physics and Earth Sciences Sensors and Semiconductors Laboratory</p> <p>He worked as chemical researcher in the Sensor and Semiconductor Laboratory, in the topic "nanostructured semiconductor materials suitable for the gas sensing technology" from 10/1/2014 to 30/10/2014.</p>
University education	
	<p>University of Ferrara Faculty of Mathematical, Physical and Natural Sciences LM/54 - Class of Master's Degree in Chemistry (DM 270/04) Master's Degree in Chemical Sciences</p> <p>Final grade: 110/110 cum laude Date of graduation: 12-12-2013 Starting year: 2011 Official length of the course: 2 years Thesis language: Italian Thesis title: Study, realization and characterization of chemiresistive nanostructured films for gas sensing applications Supervisor: Prof. Vincenzo Guidi</p> <p>The research concerned an internship / stage for the conclusion of the studies. I did this internship at the Laboratory of Sensors, Department of Physics and Earth Sciences, University of Ferrara. The research focused on the use of non-oxides semiconductors as functional material for chemoresistive gas sensors. These devices were complete manufactured inside the University of Ferrara.</p>
	<p>University of Ferrara Faculty of Mathematical, Physical and Natural Sciences Class 27 – Class of Bachelor's Degree in Chemistry (DM 270/04) Bachelor's Degree in Chemistry</p> <p>Final grade: 106/110</p>

 E-Pharma <small>Trento</small>	<p>Date of graduation: 16-12-2011 Starting year: 2008 Official length of the course: 3 years Thesis language: Italian Thesis title: Reazione asimmetrica organocatalizzata di michael/wittig di un ilide di fosforo: sintesi di un alfa-metilene-delta-chetoestere. Supervisor: Simonetta Benetti The research concerned an internship / stage for the theoretical study on the preparation of alpha-methylene-delta-ketoesters via asymmetric organocatalytic synthesis (useful for the production of drugs).</p> <p>Internship / Stage in the R&D divisiony at the Pharmaceutical Company E-PHARMA in Ravina (TN), Italy</p>
Pre-academic education	
	<p>High school diploma: Qualified Industrial Chemist Educational Institute: Istituto Tecnico Industriale Michelangelo Buonarroti (Trento) Year of final exam: 2008 Final Grade: 100/100</p>
Language	
	<p>English: B1 German: A2</p>
Computer skills	
 ECDL <small>European Computer Driving Licence</small>	<p>ECDL licence achieved in 2008</p> <p>Operating systems: Windows, Linux Data analysis: Easy Plot, Origin</p>
Skills in sensing field	
<ul style="list-style-type: none"> · Production of gas sensors: <ul style="list-style-type: none"> - synthesis of nanostructured powders of inorganic and organic semiconductors; - decoration of organic/inorganic compounds with noble metal nanoparticles; - preparation of printing pastes; - use of different deposition techniques for thin- and thick- sensing films: screen printing, spin-coating, drop-coating; - design and development of silicon and quartz micro heaters; - use of thermal treatments for the stabilization of the sensing films; - packaging of the device through the thermo-compression or ball bonding. 	
<ul style="list-style-type: none"> · Characterization of sensitive devices: <ul style="list-style-type: none"> - knowledge of techniques used for the morphological, structural, thermal and chemical; characterization of nanostructured powders and sensing films; -knowledge of technical characterization of silicon and quartz substrate; - five-year experience in the electrical characterization of gas sensors in thermo-activated and photo-activated mode; - experience in the use of laboratory equipment and gas bottles. 	
<ul style="list-style-type: none"> · Data analysis: <ul style="list-style-type: none"> - knowledge of various data processing programs; - experience in processing and interpretation of data acquired through gas sensor measurements; - expertize in interpretation of chemical reaction in heterogeneous phase. 	
<ul style="list-style-type: none"> · Product positioning: <ul style="list-style-type: none"> - environmental, industrial and smart monitoring - medical applications 	

- agricultural applications

· Communication of the results:

- experience in scientific dissemination of the results obtained through both scientific journals and international conferences
- ability to use the results for project proposals

Other technical skills

- years-experience in chemical laboratories and clean rooms;
- study of chemical compounds, from design to synthesis and characterization;
- organic and inorganic synthesis;
- knowledge of theory and use of technical instruments suitable for characterization of chemical compounds, such as: UV-visible spectrometer, gas chromatograph, HPLC chromatography, SEM, TEM, mass spectrometry, NMR, IR spectrometer, atomic absorption spectrometer, XPS, XRF.

Conferences

- **Eurosensors 2014**, Brescia (Italy), September 7-10 2014
- **AISEM 2015**, Trento (Italy), February 3-5 2015
- **6th GOSPEL Workshop**: Gas sensors based on semiconducting metal oxides – basic understanding & application fields, Tuebingen (Germany), June 7-9 2015
- **AIMETA 2015**, Genova (Italy), September 14-17 2015
- **Eurosensors 2015**, Freiburg (Germany), September 6-9 2015

- **Nanotechitaly 2015**, Bologna (Italy), November 25-27 2015
- **Convegno Nazionale Sensori 2016**, Roma (Italy), February 23-25 2016
- **Biosensors 2016**, Gothenburg (Sweden), May 25-27 2016
- **The 16th International Meeting on Chemical Sensors**, Jeju Island (Korea), July 10-13 2016
- **Eurosensors 2016**, Budapest (Hungary), September 4-7 2016
- **AISEM 2017**, Lecce, February 21-23 2017
- **5th International Conference on Multifunctional, Hybrid and Nanomaterials**, Lisbon (Portugal), March 6-10 2017
- **Eurosensors 2017**, Paris (France), September 3-6 2017
- **I3S 2017**, Barcelona (Spain), September 26-29 2017.

Patents

- DEVICE FOR PRELIMINARY SCREENING OF ADENOMA OF THE COLON-RECTUM, Inventors: Malagu' Cesare [IT]; Giberti Alessio [IT]; Gherardi Sandro [IT]; Gaiardo Andrea [IT]; Landini Nicolo' [IT]; Zonta Giulia [IT], WO2016063148 (A1) — 2016-04-28.

- Malagù C., Gherardi S., Zonta G., Landini N., Giberti A., Fabbri B. Gaiardo A., Anania G., Rispoli G., Scagliarini L., inventors; SCENT S.R.L., assignee. COMBINATION OF NANOSTRUCTURED SEMICONDUCTOR MATERIALS USED TO DISCRIMINATE HEALTHY CELLS FROM CANCER CELLS. Italy Patent request number 102015000057717. 2015 October 2

Seminars, workshops, schools

Seminars

- 1) "Biomimetism and Bioinspiration", Professor Clément Sanchez, CNRS, Trento (Italy), Bruno Kessler Foundation, Povo 2, 9-10 June 2015.
- 2) "Nanomaterials Based Gas Sensors", 13/14/15 June 2016, Professor Wojtek Włodarski, Department of Physics and Earth Sciences, University of Ferrara (Italy).

Courses

- 1) "Theoretical and practical introduction to the EPR spectroscopy", Prof. Julia Jezierska (Head of the Central Laboratory of Magnaetochemistry, University of Wrocław), Department of Chemical Sciences, University of Ferrara, 13-15 May 2014, Ferrara (Italy).
- 2) Courses on Safety and health in chemical laboratories and clean rooms, 4 bases modules + 2 modules on chemical risks, 2014-2015, Bruno Kessler Foundation, Trento (Italy).
- 3) "Public Speaking", CUOA Foundation, Alta Villa Vicentina (Italy), April 2016.
- 4) "Digital Business Strategies: the web as new marketplace", CUOA Foundation, Alta Villa Vicentina (Italy), 16 September 2016.
- 5) Training course on the use and handling of technical gases, organized by SOL GROUP, Ferrara, April 2017.

Worshop

- 1) Tredi 2015, workshop on advanced silicon radiation detectors, 17-19 February 2015, Bruno Kessler Foundation, Trento (Italy).

Training schools

- 1) Eurosensors school, Brescia (Italy), 7 September 2014.
- 2) Block Course Chemical Sensors – Basic, Technology and Applications, Tuebingen (Germany), 2-13 March 2015.

Partecipation to research projects and Register

Research Projects

- 1) **SACMI Imola S.C.**

Via Selice Provinciale, 17/A C.P. 113 - 40026 Imola (BO) Italia

<http://www.sacmi.it/>

Agosto 2014 – Agosto 2015: Collaboration between Sacmi and Sensors group of Ferrara

Objective: Reproduction of thick-film sensors based on molybdenum oxide

2) National Institute of Nuclear Physics (Italy),

LOGOS project, 2014-2015

3) SACMI Imola S.C.

Via Selice Provinciale, 17/A C.P. 113 - 40026 Imola (BO) Italy

January 2016 – December 2016: Collaboration between Sacmi and Sensors group of Ferrara

Objective: Study of sensors with particular sensitivity to some target gases

4) Bruno Kessler Foundation (Italy),

May 2016 – May 2017: Domosens Project, Founded by CARITRO Foundation

Objective: Collaboration with different high school to promote science education through educational and research.

5) POR-FESR 2014-2020

Strategic industrial research projects targeted at priority areas of intelligent specialization strategy

Axis 1: Research and Innovation

Action 1.2.2: Support to the implementation of complex projects of research and development activities on a few thematic areas of relief and the application of functional technological solutions to the realization of the strategy S3

April 2016 – March 2018

Title: Agroalimentare Idrointelligente (ALADIN)

6) SACMI Imola S.C.

Via Selice Provinciale, 17/A C.P. 113 - 40026 Imola (BO) Italy

January 2017 – December 2017: Collaboration between Sacmi and Sensors group of Ferrara

Objective: Study of sensors with particular sensitivity to some target gases

7) National Institute of Nuclear Physics (Italy),

AXIAL project, 2016-ongoing.

8) SACMI Imola S.C.

Via Selice Provinciale, 17/A C.P. 113 - 40026 Imola (BO) Italy

January 2018 – December 2018: Collaboration between Sacmi and Sensors group of Ferrara

Objective: Study of sensors with particular sensitivity to some target gases

Register

Abilitation to the chemist italian register, 11/2014, Ferrara (Italy)

Educational activities

Tutorship

- 1) Educational tutorship of General Inorganic Chemistry, Degree in Biology, Prof. A. Duatti, 2014/2015, 40 hours, University of Ferrara.
- 2) Educational tutorship of General Organic Chemistry, Degree in Biology, Prof. D. Perrone, 2015/2016, 20 hours, University of Ferrara
- 3) Educational tutorship of General Inorganic Chemistry, Degree in Biology, Prof. A. Duatti, 2015/2016, 40 hours, University of Ferrara.

Educational support

- 1) Educational Support for General Inorganic Chemistry, Degree in Earth Sciences, Prof. S. Caramori, 2015/2016, 20 hours, University of Ferrara.
- 2) Educational Support for General Inorganic Chemistry, Degree in Earth Sciences, Prof. S. Caramori, 2016/2017, 22 hours, University of Ferrara.
- 3) Educational Support for General Inorganic Chemistry, Degree in Earth Sciences, Prof. S. Caramori, 2017/2018, 20 hours, University of Ferrara

Memberships

Bruno Kessler Foundation, 2015-ongoing, Trento (Italy)

INFN, Ferrara section, 2015-ongoing

CNR – INO

Research program: “Nanostructured metal-oxides and other semiconductors for sensing and advanced applications”.

Seat: Ferrara

Period: 01/01/2016 - 30/10/2017

The undersigned agrees, pursuant to Legislative Decree. 30/06/2003 n. 196, to the processing of their personal data.

Ferrara, 01/07/2018
