

## CURRICULUM VITAE

**Surname:** Fanelli  
**Name:** Vito  
**Place of Birth:** Bari, Italy  
**Date of Birth:** May 17, 1974

### Work Positions:

**Assistant Professor** tenure track at the University of Turin, Turin  
From 29/12/2011 – present

**Attending Physician** in the Intensive care Unit at Città della Salute e della Scienza di Torino - San Giovanni Battista Molinette Hospital, Turin (Department of Surgical Science, Section of Anaesthesiology and Intensive Care).  
From 01/12/2004 – present

### Education and Professional Experience:

**-1990/1991:** Secondary School Diploma in Classical Studies at the “Liceo Classico Statale Carmine Sylos” in Bitonto, Italy.

**-22/10/1999:** Degree in Medicine and Surgery at the University of Bari

**-July 2000:** Medical Board Examination for the Provincial Order of Medical Surgeons and Dentistry of Bari.

**-November 2004:** Specialization in Anaesthesiology and Critical Care at the University of Bari, with a final grade of 70/70.

**-October 2005-December 2009:** PhD in “Functional Genomics applied to Translational Research” at the Molecular Biotechnology Centre (MBC), University of Turin.

**-September 2010-December 2011:** Post Doctoral Fellowship at the Li Ka Shing Knowledge Institute of St. Michael's in Toronto, Canada.

### Scientific Activity:

I have an interest in translational research in acute respiratory distress syndrome (ARDS) and ischemia reperfusion injury associated with lung transplantation. The studies are carried out in several *in vivo* and *ex vivo* animal models to understand the mechanisms that account for the pathogenesis and resolution of acute lung injury and pulmonary edema.

As well, I have an interest in clinical trials related to mechanical ventilation, ARDS and sepsis.

### Awards:

Second prize for best oral presentation at Critical Care Day 2011 of Interdepartmental

Division of Critical Care, Toronto, ON; Canada.

**Other Activities:**

Reviewer for peer review international journals:

Critical Care Medicine  
Intensive Care Medicine  
Critical Care  
Minerva Anestesiologica  
American Journal of Lung and Cellular Molecular Biology  
American Journal of Respiratory and Critical Care Medicine  
PLOS one

**Clinical Activity:**

I am currently working in a general ICU at Città della Salute e della Scienza di Torino - Molinette Hospital in Turin, Italy. My clinical activity is focused on ICU patients suffering from ARDS, COPD and septic shock.

Moreover, in 2010 I became a member of a specialized multidisciplinary national team of experts responsible for patient therapy during the pandemic influenza emergency of H1N1, during which we applied techniques of unconventional ventilation support such as extracorporeal life support (ECMO).

Moreover, part of my clinical duty is to look after patients undergoing lung transplantation in the perioperative phase.
